Ways to live
your life actively

WWW.IXROVERFL.COM

ABOUT US

We all long for a happy, fulfilling and contented life. We are looking for guaranteed manuals and proven recipes on how to achieve this. I believe that the key is to actively spend time in the company of our loved ones. The combination of motion and building of quality interpersonal relationships positively affects both our physical health and our mental well-being.

I personally get convinced of the truth of this statement every day. I and my whole family have been involved in physical activity and outdoor sports for many years. They have become an integral and completely natural part of our lives. It is not just the movement itself but also our mutual closeness that bring us the joy. The moments when we fully enjoy the time spent together sharing common experiences, not just side by side or through social networks but in the real world, here and now - all of this makes us happier and brings harmony and well-being into our lives.

I wished everyone could lead such a happy an active life - regardless of age, physical condition or physical disability, while at the same time feeling comfortable and safe. That is why I was looking for a product that would meet all these attributes.

The result of my search has been the iXROVER multifunctional stroller that fully honors its motto: born to move. Thanks to its unique features, it will certainly become a reliable and indispensable companion of yours while travelling. It will enable you to set out for a journey with your recently born offspring or with your grandparents, who have already given up physical activities due to health problems. iXROVER will allow you to strengthen your family relationships, will pull you out of solitude, will expand your mobility and will allow you to (re)discover all the beauties of life. So don't be afraid to open up to new experiences!

WHY CHOOSE **iXROVER**

Versatility

If you decide to buy any of our iXROVERS, you should know that you get more than just a baby coach – you also get the sports bicycle trailer. For our product has got the certificate of the National Examination Institute for both uses thus becoming completely universal.

Safety

As far as health and safety are concerned we are unbeatable in the market! No plastic connecting points, unique slant suspension of wheels and multiple seat protection, fixation insert. This all provides you and your child with the feeling of maximum security.

Quality

The high quality is in the first place for us. Also the materials we use are of the best quality. The baby coach has the all-metal chassis, we use superior aluminium alloys, strength parts and the connecting material is exclusively made of the stainless steel resistant in case of changes of climatic conditions.

Comfort

In our comfortable, easily adjustable and ergonomically shaped seat your child will feel pampered. Even if he/she is not a toddler, he/she can stretch his/her legs comfortably. His/her head and body will fit comfortably between soft rests, soft inner liners; five-point safety belts will hold him/her at place.

BiXROVER **BEHIND THE SCENE**

We believe that experiencing the outdoors and getting regular exercise and recreation are the key to a happy and fulfilled life. This should be true for everyone regardless of age or physical condition. And this is why we have placed this value at the core of our business - a happy life is a life on the move and hence our motto: "BORN TO MOVE"

Peter's story:

- Physical fitness and the outdoors have been at the center of my life for years
- **I believe that getting out and getting around safely has made my life and the lives of my family so much more happy and fulfilled**
- I wanted to make this available to everyone and the iXROVER is an ideal product that will help everyone of all ages enjoy the outdoors with their loved ones in the most comfortable, stylish and above all safe way
- Living in the USA has always been a dream of mine, ever since I first visited California back in 1992. Being able to bring my business experience together with an amazing product to a great area and a fantastic country is truly a dream come true
- **I believe giving back to the community is essential.** We have ongoing projects with the Chamber of Commerce in Sarasota to promote healthy living and going outdoors. We have donated several buggies and strollers to local senior centers and to people with disabilities as they too can enjoy a happier and more fulfilling life
